SCIENTIFIC ANCHOR

Built for decades, not for quarters

Nations that own their critical technologies own their future.
Swiss-designed, state-aligned, nationally owned — for 30 years.

The technology

- ▶ Quantum cyber range — sovereign training and national cyber resilience
- ▶ High-fidelity tactical simulation — police, armed forces, emergency services
- ▶ Immersive national academies — nation-scale training (UE5 + AI)
- ▶ Secure digital twins — tokenized ownership and IP certificates

The benefits

- ▶ Technology sovereignty — 100% Omani IP, data and governance
- ▶ Reduced reliance on foreign providers
- ▶ On-premise or sovereign national cloud deployment
- ▶ Swiss excellence — precision, neutrality, long-term vision
